PAULO MENDES

Address
Porto / Guimarães / Portugal

ABOUT ME.

Master in architecture from the University of Minho since 2013. Since then started the project ModelArq3d, stimulating training and workshops aimed to enable architects to design proficiently with use of digital tools of designing, modelling, and rendering.

In 2014 started the collaboration as an Architect at DAJ with a vast portfolio in Architecture and Engineering.

In parallel I also have several works carried out in the areas of photography, graphic design, web design, and also programming.
